

MYUNGIL LOGIS

INTERNATIONAL FREIGHT FORWARDING · KR ⇄ CN

Wherever it goes, we design the route **your cargo takes**

Company Profile

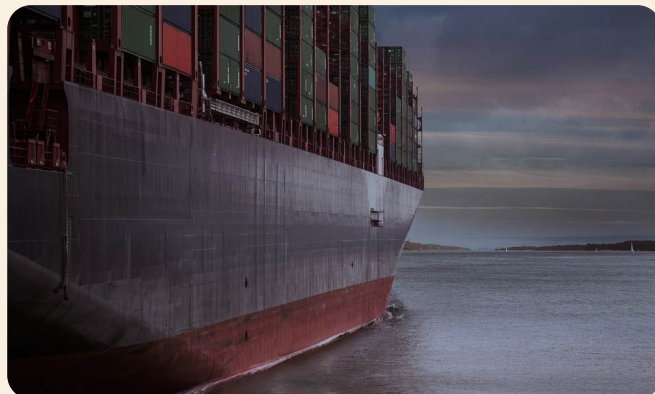

COMPANY PROFILE 2026

Sea and air forwarding, plus container trucking, customs clearance and warehousing in Korea. One partner connecting 500+ overseas agents with JOIL's domestic infrastructure.

01 About Us

JOIL's global gateway, MYUNGIL LOGIS

Founded in 2015, MYUNGIL LOGIS is JOIL's international logistics company. On top of the domestic transport and storage infrastructure JOIL Logistics and JOIL Logis have built since 1996, we add sea/air forwarding and customs expertise — so the whole import/export chain runs through one desk.

VISION

The global logistics partner that connects our customers' supply chains across borders — fastest and most reliably

Company Facts

Founded	2015
Group	JOIL

2021 MYUNGIL LOGIS Selected as Best Transport Company

WHY MYUNGIL 02 Why MYUNGIL

Global partner network

01

500+ agents on six continents and 20+ partner airlines

JOIL infrastructure

02

2,441 group vehicles and 680 logistics centers and facilities

Korea-China lane · one desk

03

Strong on the Korea-China lane; customs, transport and storage managed together

Licensed · real-time visibility

04

Licensed with an ISO management system; cargo status shared in real time

Licensed and certified

05

Registered international freight forwarder, bonded transport and warehouse operator, trucking licenses and an ISO 9001/14001 management system.

Data-driven visibility

06

GPS fleet control plus transport and warehouse systems share cargo location and status in real time.

TWO PILLARS, ONE PARTNER

International Forwarding

FCL/LCL ocean freight, air consolidation, ferry express and project cargo. Door to door — from booking to destination customs and delivery.

Domestic Logistics

Container trucking from port to door, import/export customs, bonded and general warehousing — on JOIL's nationwide fleet and center network.

03 International Forwarding

Sea, air and ferry express — we design the mode that fits your cargo and deadline, and manage everything from booking to destination customs and delivery at one desk.

Sea Freight

Drawing on accumulated know-how, we strategically design routes to every country and deliver the safest, most competitive solution. Long-term contract rates with major carriers secure space even in peak season.

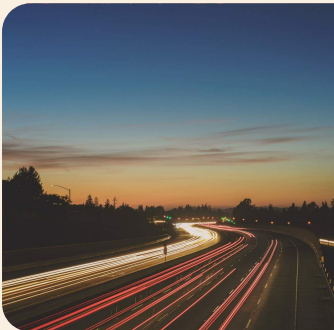

Booking → Pickup / CY gate-in → Export customs → Loading → Ocean transit → Import customs → Delivery

Air Freight

Strategic cooperation with 20+ leading airlines and 500 agents on six continents delivers reasonable, stable pricing and service. Dedicated handling for urgent, heavy/oversized, temperature-controlled and dangerous goods.

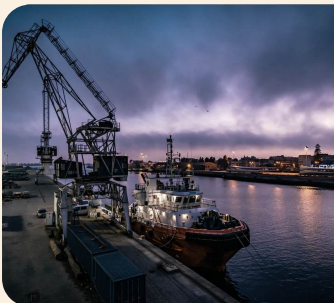

Booking → Pickup / packing → Export customs → Uplift → Arrival → Import customs → Delivery

Ferry Express — KR → CN / CN → KR

Express service on the car ferries linking Incheon and Pyeongtaek with Chinese ports. More economical than air and faster than ocean containers, for small shipments, samples and e-commerce goods. Pickup, local customs and last-mile delivery in one flow, with local partners handled directly in Chinese, Korean and English.

Pickup → Domestic consolidation → Ferry loading → Local customs → Local delivery

Project • Special Cargo

Transport planning for plant equipment, large machinery and oversized/heavy pieces, combining break bulk, RO-RO and barge. Marine insurance, packing/lashing design and on-site discharge coordination included.

Survey → Transport plan → Packing / lashing → Loading → On-site discharge support

HOW IT WORKS

From inquiry to arrival in 8 steps

01

Inquiry · cargo details

02

Route design · quote

03

Booking · space

04

Pickup · packing · gate-in

05

MYUNGIL LOGIS · Company Profile
Export customs · docs

06

Sea · air transit

07

Destination customs

08

Final delivery · settlement⁰⁴

04 Domestic Logistics

Once import cargo lands, we handle customs, container trucking and warehousing ourselves — on JOIL's nationwide fleet and center infrastructure.

Container Trucking

20ft and 40ft containers from Busan, Incheon and Pyeongtaek ports to destinations nationwide. Transit status managed by GPS.

Release order → Dispatch → Port gate-out → Transit (GPS) → Unloading → Empty return

Customs · Bonded Transport

From import/export declarations and document/origin review to inspection response and bonded transport.

Document review → Declaration → Inspection response → Duty payment → Release

Warehousing · 3PL · Fulfillment

Bonded and general warehouses. Inbound, storage, picking, packing and outbound managed end to end.

Inbound → Inspection / storage → Pick · pack · label → Outbound → Inventory report

Group Infrastructure

We use JOIL's domestic infrastructure as our own

MYUNGIL's domestic leg runs on the fleet and center network JOIL Logistics and JOIL Logis have built over 30 years.

2,441
